

WAKESKI'S – A hybrid pair of ski's with a wakeboard inspired design. Rocker twin tip and high wrapped bindings for skiers that want to take AIR! With spins, flips and even switch riding, these skis will turn the Old school into the New school.

BAREFOOT – watersports own version of "Top Gun", so talented exhibitionists or brave speed freaks will relish every second - our 51 acre lake usually offers near perfect conditions to learn and progress through training boom to the trace and finally onto longline, the ultimate for real adrenaline junkies.

DRY LAND TRAINING - try our Trampoline. Practice all your tricks or flips and really speed up your development beyond expectation, all without getting wet! ...and don't forget,

you can bring your own Windsurf Boards, Dinghies or Canoes for a small launching fee (by prior arrangement only please).

PEDALO – you provide the engine power so whether it's a race across the lake or a gentle exploration of the hidden wildlife around the lakeside, it's your choice.

VIDEO ANALYSIS – the very best way to go over what and how you did and learn by talking it through with a real expert then and there. Analyse all your moves with us in between two, back to back, lessons and see the difference it makes in your second session out there. Not all watersports involve standing up. Try one of the following activities:

Oxfordshire's best kept secret!

Watersports Centre

Watersports Centre

Hardwick Parks – one of watersports best kept secrets! The place to try just about anything that can be done behind a powerboat!

Take a standard tow for those who can, or get some serious tuition from our experienced coach for those who can't (yet) – either way, it's your call and for some brilliant fun, the number you want is **01865 300 841**

So, how good do you think you really are? – we'll provide the 5.7 litre V8 powered Sportique XLS powerboat complete with experienced driver. All you have to do is take your pick and hang on! Choose from:

WATER SKIING – from two skins on the boom to shredding the course big time on a mono, we can help you through every part of a memorable journey. By the way, we've got a slalom course for all you aspiring pro's as well!!!

WAKEBOARDING – from beginner to expert, whether it's learning to ride for your very first

time or tweaking your inverts, we can help you really push out the boundaries of that tricks and acrobatics repertoire.

KNEEBOARDING – the clue's in the name but it's not quite the easy option it sounds – you can still get up to some scary moves that'll really impress those watching, let alone yourself!

WAKESKATE – The new challenge on the water... No bindings for that feeling of freedom. This oversized skateboard deck will test the balance and board skills of any rider. Possibly the most technical discipline on the water but guarantees a smile every time.

RINGOS – one at a time or several of you – either way, this is absolutely brilliant fun and is all about seeing how long you can last sat in a rubber ring being towed behind the boat. As gentle or crazy as you like, you choose – a real buzz for all ages!

'Whatever your age or ability, nothing quite beats being out on the water'
